- Jennison Associates LLC (Jennison or the Firm) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Jennison has been independently verified for the period from January 1, 1993 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Financial Services Equity Composite (Composite) has been examined for the period from December 1, 2017 through December 31, 2017. The verification and performance examination reports are available upon request.
- Jennison Associates LLC is an investment adviser registered under the Investment Advisers Act of 1940, as amended, and an indirect wholly owned subsidiary of Prudential Financial, Inc. (Parent). Registration does not imply a certain level of skill or training. Prudential Financial, Inc. of the United States is not affiliated in any manner with Prudential plc, a company incorporated in the United Kingdom. On January 1, 2006, Jennison redefined the Firm to include JMA assets, for all periods after January 1, 2006.
- The Composite inception date was November 30, 2017 and the creation date under the GIPS standards was November 2017. The Financial Services Equity strategy seeks long-term growth of capital by investing in a broad range of financial services and related companies that we believe are best positioned relative to market expectations. A list of Jennison's composite descriptions is available upon request. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- Performance results are calculated in US dollars and reflect reinvestment of dividends and other earnings. Gross of fee performance is presented before custodial and Jennison's actual advisory fees but after transaction costs. Net of fees performance reflects the deduction of a model fee and is net of transaction costs. Model net of fee performance is based on the highest tier of the standard asset-based fee schedule, which we believe is the most applicable fee schedule for prospective clients. Actual net of fee returns are available upon request. Returns are gross of reclaimable withholding taxes, if any, and net of non-reclaimable withholding taxes. For a financial services equity separate account the fee schedule offered to institutional clients is as follows: 0.55% on all assets. Actual advisory fees charged and actual account minimum size may vary by account due to various conditions described in Jennison Associates LLC's Form ADV.
- The data presented represents past performance and does not guarantee future results. Performance results fluctuate, and there can be no assurances that objectives will be achieved. Client's principal may be at risk under certain market conditions.
- The annual composite dispersion presented is an equal weighted standard deviation calculated for the accounts in the composite for the entire year. For annual periods with less than 6 accounts included for the entire year, dispersion is not presented. The three-year annualized ex-post standard deviation is not required to be presented prior to 2011 or when 36 monthly composite returns are not available.
- The Benchmark for the Strategy is the **Standard & Poor's (S&P) Composite 1500® Financials Index** which consists of companies included in the S&P Composite 1500 that are classified as members of the GICS® financials sector.
